At Lunnon Metals we are committed to responsible stewardship of natural resources and the environment for present and future generations. We are committed to excellence in environmental performance to maintain and enhance our licence to operate.

To achieve this we will:

- Implement and maintain an environmental management system to identify, prioritise and control environmental risks and opportunities for improvement;
- Comply with applicable environmental laws, regulations and obligations relating to rules, codes and standards that relate to the environmental aspects and impacts of our activities;
- Pursue biodiversity understanding through baseline assessments and regular monitoring to enhance the ability for biodiversity protection;
- Minimise environmental disturbance wherever possible by utilising previously and existing disturbed land during the course of our activities;
- Progressively rehabilitate surface disturbance to minimise our environmental footprint; AND
- Establish an appropriate level of awareness and training for our workforce related to their environmental responsibilities.
